Section 2. Program Summary									

In 300 or fewer words, describe the proposed program, including its purpose, content, structure and duration.

The Public Health department at SUNY Old Westbury has offered a B.S. degree in Health and Society since 1975. The mission of our program is to educate students with a social determinants of health perspective, identifying the economic and social context within which individuals make health choices; to examine social forces that shape individuals' destinies; and to plan, implement, evaluate and advocate for health programs and policies. Our students learn to understand the philosophy, history, core values, and fundamental concepts of public health, and to apply this understanding in public health research, practice and prevention; to identify the key components of health care systems; to define and use key epidemiological principles; to communicate public health information orally and in writing; to conduct independent research; and to integrate ethical practices and a social justice perspective into public health practice.

The program prepares students for entry into a broad range of public health professions at the local, state, and national levels. Our students go on to graduate school in public health and other health-related disciplines, enter professions in hospitals and local non-profit health agencies, and obtain training in health professions including medicine and nursing. We are nationally accredited by the Council on Education in Public Health (CEPH). We believe, as does CEPH, that students receive an education in public health in our program. Yet we cannot currently call it public health. We are applying for this "new program" in order to replace the program's name, Health and Society.

Our 120 credit-hour B.S. degree requires students to meet all SUNY-wide and local general and liberal education requirements, to take seven core courses and three elective courses in Public Health, and to complete 4 to 8 credits in Biology and 4 credits in Applied Statistics. Full-time students can complete our program in four years.

Expected Enrollment	When Program Begins	In Year 5
Full-time students	160	215
Part-time students	40	45

* Course may be taken as a major elective; if not, GER will need to be satisfied by taking another course.

** All students are required to achieve Math Proficiency, a campus-specific requirement beyond the SUNY GER, which can be satisfied by MA1020, MA2000, or MA2050. MA 2000 is required for the major.

*** All entering first year students are required to take FY1000. Majors and transfer students also satisfy the campus-specific Diversity and Social Justice requirement with PH 3600 Social Determinants of Health.

**** Must include sufficient number of upper division credits to satisfy college's 45 credit requirement.

***** Must include at least sufficient Liberal Arts and Sciences credits to satisfy the 90 credit requirement.

***** Offered by other departments, and accepted by our department to satisfy program electives.

Optional, Illustrative Questions to Consider:

For other SUNY campuses responding to the Program Announcement

● Do you have a similar or related program? ● What has been your experience with the program? ● Would the introduction of this program have any effect, positive or negative, on your institution? If so, please specify. ● Do you perceive a need for this kind of program? ● Does the program offer an opportunity for articulation or inter-institutional cooperation?

Your response must be in writing, from your President, and addressed to the President of the proposing campus, with a copy to the SUNY Provost at program.review@suny.edu.

Procedure for Program Announcements (PA)

1. **SCOPE.** A SUNY campus must send a PA to the SUNY Provost at program.review@suny.edu before submitting a proposal for a new program leading to an undergraduate degree. Unless requested by the SUNY Provost, a PA is not required for a program leading to an undergraduate certificate, for a new program being created by combining existing registered programs (e.g., multi-award programs and/or multi-institution programs), or for a new program being created from a track, specialization, or concentration in a registered program.
2. **SUNY PROVOST'S REVIEW.** The SUNY Provost's Office reviews each PA for accuracy and completeness as well as for substantive issues, such as alignment with campus mission and SUNY policy, and requests changes when needed.
3. **PUBLICATION FOR COMMENTS.** Once a PA is acceptable to the SUNY Provost, it is announced on the SUNY Program Review listserv in a weekly *Program Review Update*, which starts a 30-day intra-SUNY

comment period. The listserv includes all campus presidents, chief academic officers, and others upon request. The PA enables other SUNY campuses – particularly those with experience with related programs – to provide information to the proposing campus that can be used to construct a sound program proposal.

4. **COMMENTS FROM OTHER CAMPUSES.** The President of each interested campus must send comments within 30 days of a PA's publication in the *Program Review Update* to the President of the proposing campus, with a copy to the Provost at program.review@suny.edu. Comments may include advice and suggestions about possible articulation opportunities, enrollment trends in related programs, and opportunities for cooperation, as well as concerns or objections.
5. **FOLLOWING THE COMMENT PERIOD.** Once the 30-day comment period for a PA ends, and any concerns and/or objections have been resolved, the campus may prepare a full proposal for the SUNY Provost and, when required, begin the external evaluation process.
6. **EXPIRATION.** A PA expires one year after its publication in the *Program Review Update*. If the proposing campus does not submit a program proposal to the SUNY Provost before a PA expires, the campus must submit another PA to start the process again.
