The following are key points of this schedule:

1. There is a one hour "common hour" M-R. There are many potential uses for this hour. In addition to club and program meetings, workshops, brown-bag lunch meetings, socialization etc.
2. The schedule has been moved down one half hour to partially account for the common hour, and to prevent evening classes from ending too late.
3. Departments wishing to schedule 3 day classes could use the first period on MWR Or the 4:40 slot. Both of these times are presently under utilized for scheduling.

This is only a recommendation for the schedule.
