

Powerful

IOTA360 provides the most comprehensive reporting in the industry:

- **Summary Report** – Frequencies/Percentages, Mean, Standard Deviation, Mode, Median, Comments
- **Graphical Summary Report** – Graphical representation of the summary report
- **Browse by Survey** – Individual survey submissions available for viewing (without any identifying information)
- **Instructor Comparison Report** – Evaluation results for all courses taught
- **Instructor Benchmark** – Instructor compared against entire faculty, school, and department
- **Summary by Department** – Response rate, frequency, and mean by department
- **Response Distribution** – graphical scatter plot of responses with outliers
- **Longitudinal Report** – allows for a timeline analysis across multiple semesters/years
- **Individual Instructor Improvement** – personalized for each instructor highlighting areas for potential improvement
- **Ad-hoc Report Generator** – generate custom reports of your own, on the fly, for anything in your dataset
- **Custom Reports** built specifically for your institution (upon request)

Easy to Use

- **Mobile Device Friendly** – surveys and reporting pages are fully optimized to support all of today's most popular smart phones and tablets
- **Full Service Option** - IOTA360 offers the only full service option in the industry. Our staff handles all data uploads, emails and support requests from faculty and students
- **LMS Integrated** – IOTA360 provides single sign-on access from directly inside your school's LMS.

(Blackboard, Moodle, Instructure, D2L, Sakai, and others)

- **ADA** – 100% Compliant WCAG 2.0 (AA) and Section 508 – VPAT available upon request

Flexible

- Unlimited survey instruments, questions, and session can be launched at any date or time
- Use your own questions or choose from our proprietary databank of 168 research based, peer reviewed questions
- Instructors can add their own questions and set their own evaluation periods
- Unlimited instructors and options for team taught and cross listed courses
- Instructors can add their own comments to their evaluations results to clarify or add context to comments or scores. These comments are only visible to themselves and immediate superiors for managerial and HR purposes.

Secure

- Completely anonymized and encrypted student data – FERPA compliant
- Level II datacenters with ACTIVE 24/7/365 intrusion detection/prevention based upon DoD Defense Information Systems Agency (DISA) Security Technical Implementation Guides (STIGs)
- All access to evaluation results is driven by the Security Matrix, our proprietary role based individual permissions technology

Economical

IOTA360 Evaluations is the best value available today. Don't be fooled by claims of "Low Cost of Ownership". If you are running your whole evaluations process yourselves, it's costing you hundreds of hours and thousands of dollars per year needlessly. Let IOTA take that burden from you for about the same annual cost that all the self service providers charge. And if you're one of the handful of schools that really prefers to run the whole process, we do have self-service options available too which can save you even more money.
