

Curriculum and Academic Planning Committee

Resolution for Proposal for a Combined B.A. /M.A.T. in Chemistry Adolescence Education

WHEREAS, the College at Old Westbury currently offers a BA in Chemistry and an MAT in Chemistry Adolescence Education; and

WHEREAS, students who complete the program could earn two degrees a BA in chemistry and an MAT in Chemistry Adolescent Education in only five years, and

WHEREAS, adolescent educators in New York public schools are currently required to earn a master's degree for permanent certification, and

WHEREAS, students would find this program convenient and precisely meeting their needs; and

WHEREAS, this combined five year program would make the College at Old Westbury a more competitive option for a college choice,

THEREFORE, BE IT RESOLVED that the Faculty Senate approve the Combined B.A. /M.A.T. in Chemistry Adolescence Education.

Approved by CAP for submission to Senate, February 8, 2019.
