

Curriculum and Academic Planning Committee
Resolution for Proposal for a Combined B.S. /M.A.T. in Biology
Adolescence Education

WHEREAS, the College at Old Westbury currently offers a BS in Biological Sciences and an MAT in Biology Adolescence Education; and

WHEREAS, students who complete the program could earn two degrees a BA in Biological Sciences and an MAT in Biology Adolescent Education in only five years, and

WHEREAS, adolescent educators in New York public schools are currently required to earn a master's degree for permanent certification, and

WHEREAS, students would find this program convenient and precisely meeting their needs; and

WHEREAS, this combined five year program would make the College at Old Westbury a more competitive option for a college choice,

THEREFORE, BE IT RESOLVED that the Faculty Senate approve the Combined B.S. /M.A.T. in Biology Adolescence Education.

Approved by CAP for submission to Senate, February 8, 2019.
